

Bilkul. Step by step guide deta hoon — kuch bhi assume nahi kar raha.

Expert Create Karne ke Complete Steps

Step 1 — Admin Login Karo

Browser mein jao: `http://192.168.1.7:3000/login`

Email aur password daalo jo tumne admin ke liye set kiya tha. Login ke baad tum dashboard pe aa jaoge.

Step 2 — Admin Panel Mein Jao

Header mein **Admin** link dikhega (sirf admin users ko). Usse click karo.

URL banega: `http://192.168.1.7:3000/admin`

Step 3 — Experts Section Mein Jao

Admin panel mein left side ya top mein **Experts** link hoga. Click karo.

URL: `http://192.168.1.7:3000/admin/experts`

Step 4 — New Expert Create Karo

"**+ New Expert**" button dikhega. Click karo.

Ek modal khulega. Yeh fields bharo:

Required fields:

Field	Example	Note
Name	Arpit Bhiyani – System Design	Human-readable naam
Slug	arpit-system-design	Auto-fill hoga naam se, edit kar sakte ho
Domain	system_design	Lowercase, underscore
Description	System design expert trained on Arpit's masterclass	Optional

Advanced Config (toggle karke kholna hoga):

Field	Value	Reason
Model Tier	strong – Claude	Answer generation ke liye best
Loop Pattern	react – Reason+Act	Design experts ke liye sahi
Temperature	0.40	System design ke liye
Top-P	0.50	Controlled exploration
Max Loop Iterations	5	Cost safety
Allowed Tools	PostArtifact, AskExpert, ReadBlackboard	Workflow tools

Create Expert button dabao.

Expert ban jayega — status `draft` hoga abhi.

Step 5 — Transcript Upload Karo

Expert card pe "Upload Transcript" button dikhega. Click karo.

Ek modal khulega — drag & drop ya click karke apni `.md` ya `.txt` file select karo.

"Start Ingestion" button dabao.

Step 6 — Ingestion Status Check Karo

Upload ke baad expert card pe ingestion status dikhega:

Last ingestion: 🕒 running (0/0 chunks)

Yeh background mein chal raha hai. Page refresh karte raho ya wait karo. Status change hoga:

Last ingestion: ✅ complete (247/247 chunks)

Isme 5-10 minute lag sakte hain depending on transcript size.

Step 7 — Smoke Test Result Dekho

Ingestion complete hone ke baad expert ka Training Status badge change hoga:

- ✅ trained — Expert publicly visible hai, kaam kar raha hai
- 🔥 draft — Smoke test fail hua, aur transcript chahiye

Agar `draft` raha:

- Matlab transcript mein enough content nahi tha
- Aur transcripts upload karo same expert ke liye (append mode hai, replace nahi)
- Dobara ingestion chalao

Step 8 — Expert Test Karo

Agar status `trained` hai toh:

1. Header mein **Experts** link click karo
2. Tumhara expert list mein dikhega
3. Ek **Project** create karo (Projects page pe)
4. Project mein expert add karo
5. Chat window kholo
6. Question poochho — expert apne transcript se answer dega with citations

Quick Checklist

- ☐ Admin login  (already done)
- ☐ Admin > Experts > + New Expert
- ☐ Name, Slug, Domain fill karo
- ☐ Advanced Config set karo (optional but recommended)
- ☐ Create Expert
- ☐ Upload Transcript (.md ya .txt file)
- ☐ Start Ingestion
- ☐ Wait for "complete" status
- ☐ Check `training_status = "trained"`
- ☐ Test via Projects > Chat

Agar Koi Error Aaye

"File required" error: File select karo pehle, phir Start Ingestion

"Slug already exists": Slug change karo — unique hona chahiye

Ingestion "failed": ML sidecar check karo — `docker-compose logs ml-sidecar`

Status "draft" after ingestion: Transcript mein zyada content chahiye — minimum ~50 pages ka content recommended hai

Shuru karo Step 2 se — Admin panel mein jao aur batao kya dikhta hai.
